

EULEP

Partnership for Excellence - Centres of Vocational Excellence Projects selected for funding under the ERASMUS+ 2021 call

EULEP is the European Learning Experience Platform that brings together 20 organisations from 8 countries, mainly Chambers of Commerce and Industry and VET providers, to work on innovation oriented subjects (artificial intelligence, virtual reality, social innovation). In cooperation with European Digital Innovation Hubs (EDIH) they reach out to different levels from the local to the European one. Thanks to cross-fertilisation, it will be possible for the consortium to develop replicable and scalable methodologies that fit into different contexts.

Main objectives

- Make C-VET more attractive for lifelong learning
- Offer businesses new and tailor-made training modules that correspond to their skills needs
- Establish or reinforce knowledge triangles at regional and national level
- Embed VET in regional economic development strategies and reinforce its governance, putting it on a sustainable path.

Main deliverables

- Some 500 companies take part in the different activities indicating their skills needs, evaluating and testing project outcomes.
- 24 VET trainers will be trained in 1 European Learning Academy, learning the 3 modules and training paths
- 160 participants will join regional multiplier events
- At least 8 VET promotion campaigns and skills competitions will be organised
- Regional VET Councils will draft 8 smart VET strategies and 8 action plans to put the project outcomes on a sustainable footing
- 2 major project events will gather some 170 stakeholders.

Project duration **4 years**

EU grant **€ 3.940.376**

Lead organisation **Eurochambres**

Location **Avenue Des Arts 19AD, 1000 Bruxelles, Belgium**
